Olympus, the home of the Twelve Gods in Greek Mythology, rock climb to monasteries on vertical rock pillars, once accessible only by frayed ropes, walk through the southernmost tip of mainland Greece which was once believed to be the entrance to Hades. Looking for something less intense? There is a great collection of villas in Greece and we can scale up or down according to your requirements. You have a fantastic choice in terms of location, room configuration and accessibility. There are also many remote villas available which will allow you to have a completely private holiday. That also means, you have the freedom to create a home away from home if you wish. Most of the villas now include complimentary concierge services and daily maid service. Last but not least, sometimes, villas work out to be more cost-effective specially if you have a larger group.

FAMILY

Multigenerational holidays are becoming increasingly popular and what better place to organise one than in Greece, where a multitude of family businesses are still actively part of the tradition and culture. We create a completely bespoke itinerary, taking into consideration all different elements that can make a family holiday memorable and truly bonding. Diving in the generous library of activities DPH World has created, allow us to take care of everything, from beginning to end and your family photo album will be full by the end of this journey. We provide 24/7 support throughout your stay, so you can maximise time with your family and not to worry about a thing.

TOUR BUTLER

DPH World now offers an adjustable and exclusive service, in order to provide complete flexibility and freedom to the travellers. We create multi-day bespoke itineraries that can be customised according to their wishes, mood and physical ability on the day they meet our 'tour butler'. A tour butler is a local and professional expert, trained to take the clients wherever they wish and organise activities as well as making arrangements based on what they desire to do in the next couple of days. Ideal as it sounds, our tour butlers know the destinations so well, they can adjust the program for the travellers to have the ultimate travel experience. Combining completely tailor-made arrangements as well as an element of surprise, we offer this service as a way to bring together the explorer and the locals and to ensure they take a truly authentic travel memory away with them. This service is highly recommended to families that want to do something different and explore several layers of the destination, as well as individuals that simply like to experience a destination in its full capacity. By the end of the journey, the tour butler will be your best friend.

EVENTS

ECO HOLIDAYS

The idea of rituals and retreats is dating back to ancient Greek times where citizens would gather together to worship, celebrate and mourn, experiencing simultaneously a curated journey leading them to 'catharsis', the purification of emotions, which is one of the main reasons we travel. Allow us to recommend retreats, activities and experiences that will assist you in this journey. Practicing discipline as well as exercising the body, mind and soul in the beautiful setting of Greece, this experience is guaranteed to be memorable and enjoyable. For some a happy place that they will always remember and reference to on a blue day, for others the beginning of spiritual journey for life. Yoga, meditation, art, writing, hiking, couples therapy, life coaching, fitness, anti-stress, religious trips, whatever it is you're looking to explore, create a holistic and niche holiday for you this year.

From sustainable, all-inclusive luxury resorts to glamping under the stars, eco holidays are the new trend in the travel industry. Experience nature like never before and reinvent life by observing and exploring how everything is being made from scratch. You set the level of luxury and we create a tailor-made proposal to ensure you are comfortable and at the same time, you have the best holiday in the most natural and sustainable way. It is sometimes healing to step back from the madness of the city and reflect on prime and core principles. Try something different this year and become one with nature.
